

# 207

## Double Coated Tissue Tape

Other ITC data sheets are available on our website [adhesiveapps.com/our-products](http://adhesiveapps.com/our-products)

### DESCRIPTION

**Product 207** is a lightweight tissue coated on both sides with a high tack, dead load synthetic-based adhesive system with an easy release polysilicone liner. Excellent for use where a high degree of quick stick and exceptional peel is required. **Product 207** is particularly suitable for splicing because hand pressure is sufficient to transfer it to most webs, after which the liner can be easily removed.

### SUGGESTED USES

**Product 207** can be used for mounting nameplates, core start-ups, or laminating to cork, cloth or felt; or splicing papers, textiles, and plastics. Also recommended for use in point of purchase displays, such as posters and signs.
