

211

Double Coated Polypropylene Tape

Other ITC data sheets are available on our website adhesiveapps.com/our-products

DESCRIPTION

Product 211 is a double coated polypropylene film tape which is double coated with an extra heavy mass of an aggressive pressure sensitive adhesive system. An easy release polysilicone liner is incorporated. **Product 211** exhibits greater peel adhesion and higher quick stick than our product 210.

SUGGESTED USES

Product 211 is recommended for those applications requiring a premium polypropylene film tape. The 50% greater adhesive mass on each side offers greater peel adhesion to difficult or irregular surfaces. Excellent for splicing, joining, holding, attaching, or laminating dissimilar surfaces. Can be dispensed.

SPECIFICATIONS

BACKING: polypropylene film, clear; .0012"
ADHESIVE: synthetic copolymer, high tack permanent
LINER: type 53# 3.2 mil white polysilicone paper

THICKNESS, LINER(in.):	.0032	TENSILE STRENGTH(lb./in.):	22
THICKNESS, TAPE(in.):	.0052	ELONGATION (%):	75
ADHESION (oz./in. width):	130	APPLICATION TEMP (F):	60-120
HOLDING POWER(min.):	10,000	TEMPERATURE RANGE (F):	-5-+180
TACK (in.):	1		

Tested values are typical under standard conditions and are not intended to be used for specification development. Technical data is believed to be true and accurate; Adhesive Applications recommends that the purchaser test for performance and fitness of use in all applications.
